HORIZON EUROPE & DEEP-TECH VENTURE BRIEFING

BY SOMMER

The Sovereign Civic Infrastructure & Active Inference Stack

Bridging biosecurity active inference, zero-knowledge jurisdictional compliance, and non-profit citizen dividend engines into a unified European sovereign operating system.

Location: Hellerup, Denmark **Patent Ref:** TONE-2026-PCT-01 **Target:** Horizon Europe / EIC Accelerator

The Sovereign Governance & Biosecurity Trilemma

1. Biosecurity Telemetry Leakage

Current health monitoring exposes private biometric data to employers and centralized platforms, violating **GDPR Article 9** and incurring immense liability during pandemic escalations.

2. E-Commerce Regulatory Friction

Cross-border B2C trade under EU IOSS (

3. Wealth Centralization & Friction

Civic administrative efficiency gains are captured by private platforms rather than accumulating as direct, non-taxable liquidity back to citizens.

The Opportunity Space

A unified sovereign layer that automates compliance, protects biological privacy via Zero-Knowledge proofs, and returns operational surpluses directly to citizens.

02 // PATENTED CORE TECHNOLOGY

The TONE Architecture & 3 Core Engines

Engine 1: PDT Circuit Breaker

&mathcal;F;Δ ≥ 3.0

ACTIVE INFERENCE TRIPWIRE

Continuously evaluates biological homeostasis divergence. Automatically freezes pre-bookings at zero DKK during physical thermal/HRV stress.

Engine 2: ZK Spatial Matcher

cpr_zk_hash

ZERO-KNOWLEDGE COMPLIANCE

Reverse-geocodes spatial coordinates to municipal rules. Verifies identity without exposing civil CPR credentials or medical PII.

Engine 3: Surplus Ledger

2.30 DKK

DAILY DIVIDEND / CITIZEN

Non-custodial daily efficiency accrual. Executes atomic, non-taxable distributions on the December 10th annual calendar epoch.

03 // UNRIVALED DEFENSIBILITY

Regulatory Moat & Legal Compliance Matrix

Danish Statutory Integration

- **Sygedagpengeloven (LBK nr 1293):** Automated NemRefusion sickness declarations with 30-day employer period compliance.
- **Danish Health Information Act:** Zero clinical diagnosis strings (`IS_INCAPACITATED: true` binary state strictly enforced).
- **Bogføringsloven:** Built-in 5-year cryptographic retention audit trail.

European Union Framework Aligned

- **GDPR Recital 26 & Art. 9:** `cpr_zk_hash` classified as pseudonymous; biometric telemetry insulated.
- **EU AI Act (Title IV / Art. 50):** Limited Risk classification; explicit advisory HITL model with zero automated adverse legal effects.
- **EU IOSS & OSS:** Monthly IOSS (< €150) and quarterly OSS automated settlement engine.

Horizon Europe Alignment & Financial Projections

Horizon Europe (EIC Accelerator) Target

Positioned for **EIC Accelerator Challenge: Deep Tech for Civic Resilience** (€2.5M grant + up to €15M equity blenders):

- **Work Programme:** European Sovereignty & Biosecurity Infrastructure
- **DKPTO Priority Date:** August 2026 (Secured)
- **PCT Phase:** August 2027 (RO/DK & ISA/EPO)

5-Year Civic Growth Projections

Year 1 (Pilot): 10,000 DK Citizens	**8.39M DKK Dividend Pool**
Year 3 (DK National): 500,000 Citizens	**419.75M DKK Dividend Pool**
Year 5 (EU Regional): 5,000,000 Citizens	**€560M Annual Dividend Pool**
